

1877 WINDSOR DINING CHAIR

This distinctive Windsor dining chair combines strength and durability with classic elegance. The six ash spindles and curved seatback, alongside the sculpted saddle seat provide a comfortable and supportive sit. The chair bow is steam bent from a single straight ash rail. Traditional wedge joints, where the legs come through the seat and a wedge is then inserted into a cut, before the leg stump is hand sanded flush with the seat, to create a lovely design detail and a very strong joint. This chair furniture can be finished in your choice from wood and paint finishes that protects the timber, whilst enabling you to choose the look to match your style and decor. You can also order a seat pad, made in your choice from our ercol collection of fabrics.
