W 550 X D 550 X H 550

0.18 CBM

At VIDA, we believe in creating products that not only enhance your home or projects but also care for the planet. That's why we carefully select fabrics with sustainability at the heart of our process. Our materials are chosen for their durability, ensuring they stand up to the demands of busy family homes and contract projects while minimising environmental impact.

We're particularly proud to incorporate SEQUAL Yarn into our Marine, Pacific, and Adira mattresses. This innovative material is born from the SEQUAL Initiative, a global collaboration that transforms marine litter recovered through ocean cleanup

programs into upcycled marine plastic. The result is a fully traceable, sustainable raw material that helps combat marine pollution and raises awareness of this critical issue. Step by step, we're working to make VIDA more sustainable—because every choice counts.

To help you choose products that best suit your needs, we have also added icons to highlight fabrics with special features, including those that are Pet Friendly, Water Repellent, and Easy Clean.

PetFriendly

Thanks to a special coating the pet hair will not penetrate into the fabric and can be easily removed.

Water Repellent

Fabric covered with a special protective coating, forming a water repellent layer which prevents rapid fluid

Easy Clean

The Easy Clean technology allows the removal of even tough stains without the need for chemical cleaning agents, simply use water. Stains such as Ketchup, coffee and ink can easily be removed.

- Carefully remove excess dirt
- Soak the stain with cool water and blot with a paper towel
- Leave to dry
