

UNCOVER

Design by

Marie Christine Domer

Description

In the same vein as COVER 1, Marie Christine Domer has dreamt up a cover which fits its structure like a glove, a skin even. COVER, divested of its winter covering, becomes UNCOVER. A light, compact all-foam settee which is easy to use, and just as easy to move : freedom !

Available in 2 versions :

- a quilted, machine-stitched version, using the same method used for l'Imprévu. Suitable for use with all fabrics in the collection (NB except technical impossibilities).

- a stretch version, covered in either Maxi or Moby (grade N).

Technical Specifications

CONSTRUCTION

An assembly of varying densities of high resilience polyurethane Bultex foam and polyether foam (base). Frame of footstool in 3-layer particleboard, with black polypropylene gliders.

COMFORT

Structure in high resilience Bultex foam (36kg/m3 - 2.7 kPa, 38 kg/m3 - 3.6 kPa). Base in polyether foam (28 kg/m3 - 4.8kPa, 34 kg/m3 - 6.4 kPa). Core of settee armrests in moulded foam, density 42 kg/m3 – 48 kPa. The entire structure is clad in 110 g/m² polyester quilting. Settees are equipped with a feather-filled cushion (40 cm x 40 cm) as standard, covered in the same covering material/colour as the main cover, but without the stitched motif. This cushion is also priced separately should more be required.

MAKING-UP

Two versions of cover are available – either smooth or with quilted, stitched motif.

For the smooth version, only stretch fabrics may be used. Both versions have removable covers.

The quilted version is made using an automated sewing robot which combines the fabric with 350 g/m² polyester quilting. The stitch detailing of the cover is carefully positioned to give a harmonious effect

Footstool : The quilted version has a smooth band to the front.
