NATUZZI  
EDITIONS

## Choose your Zenith

The Zenith project is extremely versatile thanks to its 10 SKUs that allow us to create unlimited configurations suitable for any space, from the stores to our customers' homes.

### Sofa

### Dual power motion sofa

### Chair with arm

### Armless chair

### 45° degree Corner

### Dual power motion chair with arm

### Dual power motion armless chair

### Optional battery pack

## Versatility and configurations

The abacus «Versions and Compositions» shows all the versatility of the project. In particular, as in the examples below:

**F005**

**F46**

**F50+291+F52**

**F50+045+291+F52**

**F50+291+045+291+F52**

**F50+045+045+291+F52**

Thanks to the Configurator, it's possible to customize this versatility according to the customer's needs.

## Features & Benefits

**Dual Power Motion mechanism**

**Zero-Gravity**

**Zero-Wall**

**Power adjustable headrest (Manual on stationary versions)**

**USB Port**

**Multiple configurations**

**Available in Leather and Fabric**

**Customizable foot finishings**

**Optional battery pack available**

**USB Port**  
to comfortably charge your devices.

**Power adjustable headrest**  
The headrest inclination can be adjusted separately for optimum head support.

**T.V. Viewing Position**  
The functions allow you to adjust your seating arrangement, ensuring that you achieve the ideal posture for fully supported enjoyment while watching television.

**«Dual Power Motion» Mechanism**  
“All-in-One” dual reclining mechanism that in a gradual sequence, adjusts the headrest first, and continually activates a “comfort-tilt of the seat and a full extension of the footrest.

**«Zero-Gravity» Technology**  
allowing you to reach a «zero-gravity relaxing position with proven health benefits.

**Switch Panel Pocket**  
A fully upholstered pocket housing the switch panel enhances the visual appeal of the model, offering a distinctive aesthetic element.

## Features & Benefits

By distributing weight evenly across all pressure points, the zero-gravity power motion system makes you feel weightless. It takes the pressure off your spine and can promote circulation in the legs. The definition of Zero Gravity Reclining is the ability for your legs and feet to be resting at the same level of your heart which provides proven health benefits.

### Reduces pressure on the spinal column

The design of a zero-gravity seating ensures the body stays in the correct natural curvature of the spine.

### Improves blood flow and circulation

### Reduces emotional stress

Zero-gravity seating lets you take a relaxing posture, allowing you some quiet time alone. This can be a useful meditation tool.

### Promotes proper posture

It may be hard to maintain the right posture when reading a book for example or watching TV. Fortunately, it is possible to do this with a zero-gravity system because it is designed to take the natural curvature of your spine while still offering full back support.

### Reduces muscle tension

### Improves lung function over time

The lung muscles become fully expandable when you use a zero-gravity relaxing mechanism. This means that blood can oxygenate the body with less energy.

## Craftsmanship & Tailoring Details

Double-needle stitching with piping represents an important aesthetic feature, enhancing the sofa's profile and precisely defining the lines of seats, backrests, and armrests. The pinched piping highlights every contour with tailored precision, adding a sophisticated touch. Beyond its decorative value, the piping sharpens the perception of the backrest and cushion thicknesses, emphasizing craftsmanship and the refined identity of a high-quality product.

Horizontal decorative stitches are a key aesthetic element: they define the shapes of the sofa, seats, backrests, and arms, highlighting the contours and craftsmanship. The "pinched" seams emphasize its profiles, giving a sophisticated look. Beyond the decorative values, they visually tie together the backrest and cushion forms, underscoring attention to detail and the identity of a high-quality product and craftsmanship.

The perimeter seams on seats and backrests may overlap – a distinctive characteristic of the product.

During use, the covering of the relax versions experiences a different tension and stretch compared to the fixed versions. The movable parts, such as the headrests with soft padding, inevitably generate movement and the horizontal aesthetic seams might not align perfectly, which will therefore not appear aligned with one another

## Comfort & Visual Softness

The model features an integrated relax mechanism, which enhances comfort by allowing the seat position to be adjusted according to the desired level of relaxation. Due to the presence of soft padding, slight misalignments between seat sections may occur a physiological behavior resulting from the natural elasticity of the materials, and a sign of genuine comfort and softness.

The soft padding beneath the seat and back cushions adds a “soft-to-the-eye” appearance, conveying a sense of comfort and relaxed hospitality. This construction approach gives the sofa a warmer, more informal, and naturally “lived-in” look.

The integrated mechanism is designed to enhance comfort, allowing the seating position to be adjusted for a personalized sense of comfort. Each sofa is crafted with meticulous attention to detail, showcasing artisanal precision in every stitch and finish. Natural variations such as wrinkles or subtle marks are not flaws but distinctive traits of genuine leather, that highlight the evolving beauty of each piece over time.

## Layout examples

It's possible to highlight the versatility of the project even with different layouts, suggesting the creation of various roomsets to show the optimization of spaces in any living area.

**DIM: 11sqm / 118sq ft**

**DIM: 12sqm / 129sq ft**

**DIM: 12,5sqm / 135sq ft**

**DIM: 16sqm / 172sq ft**
